ABOUT

I am a dedicated Front End Developer with a passion for scalability and a focus on collaborative problem-solving. I use my years of experience in effective communication and teamwork to create positive, accessible, and high-performing web experiences.

PROJECTS

HANGMAN | [\[LIVE\]](#) [\[REPO\]](#)

React, SASS, RESTful API, Firebase

- Users are given 6 attempts to guess a word, one letter at a time
- Users lose points for wrong guesses and for retrieving hints
- Words generated from a 3rd-party API
- Cross-referenced to Merriam Webster Dictionary API for definitions
- Users can post their names and scores to the leaderboard hosted by the Realtime Database in Google's Firebase

NY TIMES NEWS | [\[LIVE\]](#) [\[REPO\]](#)

JSX, React, CSS, NYTimes API

- Real-time feed of NYT articles
- Users can type keywords to search for publications
- Fetched data using Axios

STICKY NOTES | [\[LIVE\]](#) [\[REPO\]](#)

JavaScript, HTML, CSS, Local storage API

- Allows users to create and save notes with daily tasks, events, etc.
- Added features: font colour palette, sketching, night mode

EXPERIENCE

Jr. Front End Developer [\[Contract\]](#)

Marketx Communications | 2020 - 2021

- Built interactive web applications in React JS framework, JavaScript ES6, jQuery integrated with RESTful APIs, and Firebase
- Developed accessible, and responsive websites in HTML5, CSS3, and SASS(SCSS) from PSD & Sketch designs
- Created version control and open-sourcing code with git and Github
- Performed unit testing, troubleshooting and debugging code
