ABOUT

I am a seasoned Front End Developer with a passion for scalability and a focus on collaborative problem-solving. I use my years of experience with various tools and technologies to create positive, accessible, and high-performing web experiences.

RELATED EXPERIENCE

Front End Developer [Contract Full-Time]

Marketx Communications | Feb. 2020 - Dec. 2021

- Built interactive web applications in React JS framework, JavaScript ES6, jQuery integrated with RESTful APIs, and Firebase
- Developed accessible, and responsive websites in HTML5, CSS3, and SASS(SCSS) from PSD & Sketch designs
- Worked with Shopify on the client-side, creating stores, adding new products, and connecting to Builder.io
- Performed unit testing, troubleshooting, and debugging code

SIDE PROJECTS

HANGMAN | [\[LIVE\]](#) [\[REPO\]](#)

React, SASS, RESTful API, Firebase

- Users are given 6 attempts to guess a word, one letter at a time
- Users lose points for wrong guesses and for retrieving hints
- Words generated from a 3rd-party API
- Cross-referenced to Merriam Webster Dictionary API for definitions
- Users can post their names and scores to the leaderboard hosted by the Realtime Database in Google's Firebase

NY TIMES NEWS | [\[LIVE\]](#) [\[REPO\]](#)

JSX, React, CSS, NYTimes API

- Real-time feed of NYT articles
- Users can type keywords to search for publications
- Fetches data using Axios

STICKY NOTES | [\[LIVE\]](#) [\[REPO\]](#)

JavaScript, HTML, CSS, Local storage API

- Allows users to create and save notes with daily tasks, events, etc.
- Added features: font colour palette, sketching, night mode
